

DATA STANDARDIZATION MANUAL

Issue Final

Version 8.0

1st June, 2023

Bank of Uganda,

P. O. Box 7120, Kampala, Uganda,

Plot 37/45 Kampala Road.

© 2007 Bank of Uganda, All Rights Reserved.

This manual on financial sector standardization of data addresses the global definitions and classifications regarding data submission variables and their use in the Credit Reference System (CRS). It contains data variables to be supplied by all Commercial Banks, Credit Institutions, Micro Finance Deposit-Taking Institutions, Registered Societies and Accredited Credit Providers.

The standardized data categorized in this manual meet with Bank of Uganda supervision requirements specifically with regard to the Credit Reference System data submission purposes.

1. GENERAL GUIDELINES

1.1 INTRODUCTION

Under Sections 4 and 40 of Bank of Uganda Act, as well as Sections 79 and 80 of the Financial Institutions Act 2004 (FIA) and Sections 55 to 57 of the Microfinance Deposit-Taking Institutions Act 2003 (MDIA), Bank Of Uganda (BOU) is granted unrestricted access to the records of financial sector institutions, either through onsite examinations or offsite surveillance, to fulfil its duties to supervise, regulate, control and discipline all financial institutions.

Additionally, Section 78 of the FIA 2004 and Section 46 of the MDIA 2003 mandate BOU to establish directly or through an appointed agent, or through a licensing mechanism, a credit reference bureau (CRB) that shall disseminate credit information among financial institutions for their business.

Hence, there is need to establish, for supervisory purposes, the informational requirements of BOU and the requirements of the CRB to fulfil their duties in this key support area of credit risk management for Financial Institutions, this achieved in the context of international best practice.

1.2 PURPOSE OF THE MANUAL

The purpose of this manual is to describe the data to be submitted by the Participating Institutions (PIs) to the CRB and for the purposes of BOU's data requirements for supervisory purposes. Participating Institutions include Commercial Banks, Credit Institutions, Micro Finance Deposit-Taking Institutions, Registered Societies and Accredited Credit Providers.

It also describes the technical formats of data to be submitted by the Participating Institutions (PIs) to CRBs and for the following purposes:

- To enhance the provision of credit reporting facilities by the CRB to PIs;
- To facilitate the provision of supervisory credit reporting facilities by the CRBs to BOU.

1.3 TARGET AUDIENCE

The standardization manual targets the following audience

- BOU Supervision Officers
- PI Executive Management
- PI Credit Managers
- PI Risk Managers
- PI Information Technology Managers and Staff
- PI Project Managers
- Credit Reference Bureau Managers and Staff

1.4 RELATED DOCUMENTS

1.5 SUBMISSION REQUIREMENTS

1.5.1 Data Delivery

All delivered data shall be in the following formats:

- **CSV:**

Data stored in this form shall have all data fields separated by a pipe (|) delimiter with text qualifiers, e.g. **D|"CP001"|"00001"|"99009"**

All records shall have the same/identical sequence of fields, and all records are to be separated by line breaks. The sequence of fields for each record must be exactly as listed within each dataset section within this document (see Section 2). Please note that line breaks and carriage returns should not be included within the data.

- **HTTPS:**

Data submitted through this protocol shall conform to the rules and principles laid out within the Data Submission Protocols document (DSP). Individual Credit Reference Bureaus may further provide detailed instructions to ensure PIs are able to securely and reliably exchange data with the Credit Reference Bureau.

1.5.2 Data Submission Media

The optical or electronic media formats to be used for data submission / delivery to the CRBs are listed below:

- Emails (data transmitted through digital messages must be encrypted, and the recipient facilitated with the respective decryption keys to access and process the data);

- Encrypted CDs/DVDs (encrypted data stored on an optical disc of a variant defined by the CRB);
- Encrypted Memory Stick (or any other flash memory card format that can be processed by the CRB);
- SCP/SFTP (secure data transfer over a reliable data stream provided by the CRB);
- HTTPS (data transmitted over a secure internet communications link provided by the CRB).

1.6 FILE NAMING

A separate file must be submitted for each dataset with a unique filename, with all alphabetic characters in upper case except the file extension. Each file submission should be named according to the format listed below:

[PI Identification Code][Submission Date][File Identifier].[File extension]

e.g.

CB99920120101CBA.csv

2. PI Identification Code refers to the unique identification code issued by Bank of Uganda to the PI.

3. Submission Date refers to the last day of the month for which the PI is submitting data, and is in the format YYYYMMDD.

4. File Identifier refers to the unique identification code of the datasets, as listed below:

    - PI - Participating Institution,
    - IB - Institution Branch,
    - CBA - Credit Borrower Account,
    - CAP - Credit Application,
    - BC - Bounced Cheque,
    - PIS - Participating Institution Stakeholder,
    - BS - Borrower Stakeholder,
    - CMC - Collateral – Material Collateral,
    - CCG - Collateral – Credit Guarantor,
    - FRA - Financial Malpractice Data.

5. File Extension refers to the suffix separated from the filename by a (.) dot, as shown below:

.CSV

2. DATA STANDARDIZATION OVERVIEW

2.1 OVERVIEW OF DATA REQUESTED

The scope of the data standardization covers all the variables and data that PIs shall make available to BOU and to CRB services, to be shared among the PIs. Additional data shall be included in this manual after consultations with the PIs and CRB provider.

Although some IT-related information has been added to the list of data sets, the technical aspects covered by the standardization in this manual, including data processing specifications and other IT-related directives, are to be accessed in the accompanying Data Submission Specification manual from Bank of Uganda.

The standardization scope includes:

- List of data sets;
- List of line items in each dataset; and
- Definition of each line item in the dataset;

2.2 DATA REQUIRED

The data to be made available to BOU and submitted by the PIs to the CRB include the data sets listed below and described in the following sections.

Below is a list of datasets to be standardized, and their abbreviations:

- Participating Institution - PI
- Institution Branch - IB
- Credit Application - CAP
- Borrower Credit Account - CBA
- Bounced Cheques - BC
- Participating Institution Stakeholders - PIS
- Borrower Stakeholders - BS
- Collateral – Material Collateral - CMC
- Collateral – Credit Guarantor - CCG
- Financial Malpractice Data - FRA

2.3 DATASET SUBMISSION REQUIREMENTS

All above datasets are to be submitted with unique file names as outlined in Appendix 1.32 File Name.

All records within each dataset are to be defined by headers so as to differentiate between header and data records. The formats for these headers are discussed in Appendix 1.31 Dataset Identification.

The technical aspects of the list of data sets covered in this manual, including data processing formats, specifications, and IT-related directives, are to be accessed in the accompanying Data Submission Specification and Data Validation Rules manuals issued by Bank of Uganda.

2.3.1 Data Submissions

All monthly data submissions by PIs must be sent to all credit reference bureaus on or before 4:00 pm on the 10th of each month. Should the 10th fall on a holiday or weekend, the first preceding day must be used as the deadline date.

2.3.2 Data Re-submission

All monthly data re-submissions by PIs must be sent to all credit reference bureaus on or before 4:00 pm by the 15th of each month. Should the 15th fall on a holiday or weekend, the first preceding day must be used as the deadline date.

Data re-submission is mandatory as long as the file has not scored 100% even if it has attained the prescribed threshold. The underlying principle for re-submission is to achieve 100% acceptance for all records submitted to the CRBs.

2.3.3 Data Quality thresholds

Data quality and integrity are key to sound and credible credit information sharing system. Bank of Uganda prescribes the following acceptance thresholds for each of the data sets.

	Data Set	Threshold
1.	Credit Borrower Account (CBA)	95%
2.	Credit Application (CAP)	100%
3.	Bounced Cheques (BC)	85%
4.	Participating Institution (PI)	100%
5.	Institution Branch (IB)	100%
6.	Participating Institution Stakeholders (PIS)	100%
7.	Collateral- Credit Guarantor (CCG)	85%
8.	Collateral Material Collateral (CMC)	85%
9.	Borrower Stakeholder (BS)	85%
10.	Financial Malpractice Data (FRA)	75%

The threshold for all files submitted by the Accredited credit providers shall be 80%. Bank of Uganda may from time to time revise the acceptance thresholds.

2.3.2 Data Submission Protocols

All PI data submissions must be transmitted using secure methods outlined in the Data Submission Protocols manual issued by BOU.

2.3.3 CRB Data Reporting

All credit reference bureaus are to submit quality reports corresponding to each PI's real-time/daily or monthly data submissions to the PIs within fortyeight (48) hours excluding weekends (or 2 working days). Late PI data submissions must be reported by the credit reference bureaus to BOU. The PI's are however allowed to correct and resubmit data within 5 days from the receipt of their data quality results from the Credit Reference Bureaus.

2.4 DATASET SUBMISSION STATUS AND DATA FIELD FORMATS

ABBRV.	STATUS	DEFINITION
M	Mandatory	Mandatory fields must be supplied. If not supplied the record will be rejected.
C	Conditional	Conditional fields must be supplied when the applicable business rule is met, if not the supplied record will be rejected.
O	Optional	Optional fields can be supplied when available. No data will be rejected based on these fields.
A	Alpha-Numeric	The number of characters in alpha-numeric fields (formatted as "A") is indicated for each respective data field in the "FORMAT" column. The alphanumeric character set consists of the following regular expressions: [**a-zA-Z0-9_\-\;\:\/\\\?*\!\+\@\&\£\$\€\<\>\#\%\s\[\]\"\=\.\'\(\)\,**] Note that the backslash preceding most characters listed above signals they are to be interpreted as the character except **\s** which is translated to mean a (space). Exceeding any data field's character limit will result in a rejection of that data field's value.
N	Numeric	The number of characters in numeric fields (formatted as "N") is indicated for each respective data field in the "FORMAT" column below. No thousand-separators are required for these fields. Exceeding any data field's character limit will result in a rejection of that data field's value.

ABBRV.	STATUS	DEFINITION
AS	Alpha-Numeric & Non-ASCII	The number of characters in non-ASCII fields (formatted as “AS”) is indicated for each respective data field in the “FORMAT” column. The alphanumeric character set consists of the following regular expressions: [**a-zA-Z0-9_\-\;\:\/\\\?*\!\+\@\&\£\$\€\<\>\#\%\s\[\]\"\=\.\'\(\)\,**] The non-ASCII character set consists of the following regular expressions (separated by backslash): [**Á\Á\â\Â\à\À\å\Å\ã\Ã\ä\Ä\æ\Æ\ç\Ç\ð\Ð\é\É\ê\Ê\è\È\ë\Ë\í\Í\î\Î\ì\Ì\ï\Ï\ñ\Ñ\ó\Ó\ô\Ô\ò\Ò\ø\Ø\õ\Õ\ö\Ö\ß\þ\Þ\ú\Ú\û\Û\ù\Ù\ü\Ü\ý\Ý\ÿ**] Exceeding any data field's character limit will result in a rejection of that data field's value.
D	Decimal	The number of characters in decimal fields (formatted as “D”) before and after the decimal point is indicated for each data field in the “FORMAT” column below. The decimal character set consists of the numbers 0 to 9, and are written in the base-10 numeral system. No thousand-separators are required for these fields. Exceeding any data field's character limit will result in a rejection of that data field's value.

3. GUIDELINES FOR DATA STANDARDIZATION

3.1 PARTICIPATING INSTITUTION

Participating Institutions (PI) comprise all regulated and non-regulated institutions permitted by the Bank of Uganda to use the CRB system. This set of data includes the minimum data required to identify a PI. PIs must submit their institution information including all data defined below and following the definitions for each data.

3.2. Dataset Identification

This refers to the identification section that distinguishes each dataset submitted by each PI. Refer to Appendix 1.31 Dataset Identification.

PARTICIPATING INSTITUTION DATA FIELD STATUS AND FORMATS

DSM REF.	3.1 PARTICIPATING INSTITUTION DATA FIELDS	STATUS	FORMAT	DEFINITIONS
3.1.1	Record Identification	M	A1	Refers to the identification section that distinguishes each dataset submitted by each PI. Refer to Appendix 1.31 Dataset Identification.
3.1.2	PI_Identification_Code	M	A6	Refers to the unique identification code issued by Bank of Uganda to the PI.
3.1.3	Institution_Type	M	A3	Refers to the classification of the Participating Institution by Bank of Uganda as described in the FIA 2004 as amended, second schedule; the Microfinance Deposit Taking Institutions Act, 2003, the Financial Institutions (Credit Reference Bureau) regulations, 2022 and the valid list of types of institutions are provided in Appendix 1.2 Type of Institution .
3.1.4	Institution_Name	M	AS100	Refers to the name of the PI as per the license issued by BOU or its respective licensing body.
3.1.5	License_Issuing_Date	C	N8	Refers to the license number issued date when the PI was licensed by BOU or its respective licensing body. This date shall include year, month and date-of -month. Format: YYYYMMDD

PARTICIPATING INSTITUTION DATA FIELD STATUS AND FORMATS

DSM REF.	3.1 PARTICIPATING INSTITUTION DATA FIELDS	STATUS	FORMAT	DEFINITIONS
3.1.6	License_Number	C	AS12	Refers to the license number issued to the Participating institution by BOU or its respective licensing body.
3.1.7	Primary_Contact_Information	M		Refer to Section 3.11 Primary Contact Information (PCI).

3.2 INSTITUTION BRANCH

The details below describe the registered branches for the PIs.

3.2.1 Dataset Identification

This refers to the identification section that distinguishes each dataset submitted by each PI. Refer to Appendix 1.31 Dataset Identification.

INSTITUTION BRANCH DATA FIELD STATUS AND FORMATS

DSM REF.	3.2 INSTITUTION BRANCH DATA FIELDS	STATUS	FORMAT	DEFINITIONS
3.2.1	Record Identification	M	A1	Refers to the identification section that distinguishes each dataset submitted by each PI. Refer to Appendix 1.31Dataset Identification.
3.2.2	PI_Identification_Code	M	A6	Refers to the unique identification code issued by Bank of Uganda to the PI.
3.2.3	Branch_Identification_ Code	M	A3	Refers to the unique identification code issued to the branch by Bank of Uganda at the time of approval and is unique per PI. Bank of Uganda regularly updates and shares the branch identification codes with the concerned PI and the CRBs.
3.2.4	Branch_Name	M	AS100	Branch Name refers to the name of the branch as recorded by Bank of Uganda at the time of approving the branch.
3.2.5	Branch_Type	M	A1	Branch Type refers to the type of branch as defined by BOU. The relevant types of branches are: B=Branch, A=Agency
3.2.6	Date_Opened	M	N8	Refers to the date when the branch was opened. This date shall include year, month and day of the month. Format: YYYYMMDD
3.2.7	Primary_Contact_Information			Refer to Section 3.11 Primary Contact Information (PCI).

3.3 CREDIT BORROWER ACCOUNT

This section details the information to be provided about a borrower, including all credit accommodations e.g. overdrafts, guarantees, and bonds.

All accounts that have been paid off during the reporting period (with zero (0) current balance) must be reported. All active accounts that have not been fully paid off must also be reported. Overdraft facilities that have not yet been utilized (therefore with zero (0) current balance) must also be reported. A facility can be utilized at any point and future creditors must be aware of this potential before determining credit worthiness.

CREDIT BORROWER ACCOUNT DATA FIELD STATUS AND FORMATS

DSM REF.	3.3 CREDIT BORROWER ACCOUNT DATA FIELDS	STATUS	FORMAT	DEFINITIONS
3.3.1	Record Identification	M	A1	Refers to the identification section that distinguishes each dataset submitted by each PI. Refer to Appendix 1.31Dataset Identification
3.3.2	PI_Identification_Code	M	A6	Refers to the unique identification code issued by Bank of Uganda to the PI.
3.3.3	Branch_Identification_Code	M	A3	This must be the BOU-issued branch identification code for the branch that is servicing the loan, facility or account. Bank of Uganda regularly updates and shares the branch identification codes with the concerned PI and the CRBs. .
3.3.4	Borrower's_Client_Number	M	AS30	Refers to the unique number assigned to the borrower (whether individual or non-individual) by the PI, and is unique per PI. Refers to the unique number assigned to the borrower (whether individual or non-individual) by the PI, and is unique per PI. Consider Illustration 1.1, all Client Numbers are unique to each borrower even where the Branch Numbers and Client Numbers are identical across multiple credit accounts.

CREDIT BORROWER ACCOUNT DATA FIELD STATUS AND FORMATS

DSM REF.	3.3 CREDIT BORROWER ACCOUNT DATA FIELDS	STATUS	FORMAT	DEFINITIONS
3.3.5	Borrower_Classification	M	N1	This refers to the type of entity that is/has entered a contract with the creditor to borrow funds. The relevant values are: ▪ Individual; ▪ Non-Individual.
3.3.6	Credit_Account_Reference	M	A30	Refers to the unique reference number given by PI to each credit account, and is unique per PI. Consider Illustration 1.1, all Credit Account Reference Numbers are unique to each credit account even where the Branch Numbers and Client Numbers are identical across multiple credit accounts. Credit Account Reference refers to the unique reference number given by PI to each credit account, and is unique per PI.
3.3.7	Credit_Account_Date	M	N8	Refers to the date when the credit was granted. This date shall include a year, month and day of the month.
3.3.8	Credit_Amount	C	D21.2	Refers to the amount disbursed. The credit amount would be an actual amount less costs and interests disbursed to the client. Loan amount to be supplied (instead of facility amount) when the account is a loan.
3.3.9	Credit_Amount_UGX_Equivalent	O	N21	Refers to the UGX equivalent of the 'Credit Amount' disbursed, if the latter is in a foreign currency. Refer to BS 100. UGX Equivalent of a foreign currency Credit Amount to be supplied when the account type is a loan.

CREDIT BORROWER ACCOUNT DATA FIELD STATUS AND FORMATS

DSM REF.	3.3 CREDIT BORROWER ACCOUNT DATA FIELDS	STATUS	FORMAT	DEFINITIONS
3.3.10	Facility_Amount_Granted	C	D21.2	Refers to the amount approved for the facility. This does not indicate the amount utilized, but rather an indication of the potential amount that can be utilized; an example could be a credit card or an overdraft. With an overdraft you have an amount available that can be spent, but is not necessarily utilized. The facility is an indication of the amount that is available to the client and should be used when determining a client's affordability. Facility amount must be supplied, instead of credit amount, when a facility (e.g. overdraft, line of credit) is supplied.
3.3.11	Credit_Amount_Drawdown	C	D21.2	Refers to the amount that is utilized on an 'overdraft', 'letter of credit', or 'revolving credit' facility; i.e. the amount advanced to the customer on an approved 'overdraft', 'letter of credit', or 'revolving credit'. This field is not a cumulative total of all drawdowns; therefore if no advance options are utilized on an 'overdraft', 'letter of credit', or 'revolving credit' facility during a reporting month, this field must be empty.
3.3.12	Credit_Amount_Drawdown_UGX_Equivalent	O	N21	Refers to the UGX equivalent of a foreign currency 'Credit Amount Drawdown' disbursed, to be supplied when the account type is a facility. Refer to BS 100.
3.3.13	Credit_Account_Type	M	N2	Refer toAppendix 1.5 Credit Account Type.
3.3.14	Group_Identification_Joint_Account_Identification	C	A30	Group Identification/Joint Account Identification refers to the unique group identification/joint account Identification if the credit account is a group loan or if the credit agreement is for a joint account. Consider Illustration 1.2 for reference to unique Group Identification/Joint Account Identification. - For solidarity group lending accounts and joint accounts.

CREDIT BORROWER ACCOUNT DATA FIELD STATUS AND FORMATS

DSM REF.	3.3 CREDIT BORROWER ACCOUNT DATA FIELDS	STATUS	FORMAT	DEFINITIONS
3.3.15	Transaction Date	M	N8	Refers to the date when the last transaction on the credit account took place. - Format: YYYYMMDD
3.3.16	Currency	M	A3	Refer to APPENDIX 1.20 CURRENCY ISO CODES.
3.3.17	Opening_Balance_Indicator	M	N1	Refer to APPENDIX 1.8 Opening Balance Indicator.
3.3.18	Maturity_Date	M	N8	Refers to the date when the credit agreement shall either be fully paid or terminated. This date shall include a year, month and day of the month. This field is a prediction and the final closure date can differ from the maturity date. - Maturity date is the date on which the account (whether overdraft, facility or loan) should be settled. - Format: YYYYMMDD
3.3.19	Type_of_Interest	C	N1	Refer to APPENDIX 1.9 Credit Account Interest Rate Type. This does not pertain to letters of credit, guarantees, overdrafts and bonds. - If the “Credit Account or Loan Product Type” is not a “Guarantee” or “Bond”, this field must be supplied.
3.3.20	Interest_Calculation_Method	C	N1	Refer to APPENDIX 1.10 Credit Account Interest Calculation Method. This does not pertain to letters of credit, guarantees, overdrafts and bonds. - If the “Credit Account or Loan Product Type” is not a “Guarantee” or “Bond”, this field must be supplied.

CREDIT BORROWER ACCOUNT DATA FIELD STATUS AND FORMATS

DSM REF.	3.3 CREDIT BORROWER ACCOUNT DATA FIELDS	STATUS	FORMAT	DEFINITIONS
3.3.21	Annual_Interest_Rate_at_Disbursement	C	D6.2	Refers to the annual interest rate stated at the date of disbursement of the credit account. This does not pertain to letters of credit, guarantees, overdrafts and bonds. - If the "Credit Account or Loan Product Type" is not a "Guarantee" or "Bond", this field must be supplied. - Format: 000000.00
3.3.22	Annual_Interest_Rate_at_Reporting	C	D6.2	Refers to the annual interest rate currently in effect at the date of reporting on the credit account. Interest rates may change for certain credit accounts during the life of an account. - If the "Credit Account or Loan Product Type" is not a "Guarantee" or "Bond", this field must be supplied. - Format: 000000.00
3.3.23	Date_of_First_Payment	C	N8	Refers to the actual date when the first payment on the credit account was made or the predicted date when the first payment on the credit account is due. This date shall include year, month and day of the month. 3. Single payment loan	2
4. Irregular repayment schedule	3

APPENDIX 1.12 CREDIT ACCOUNT STATUS

Refers to the status of the credit account at time of reporting.

The definitions for each credit account status are listed below.

Status	Definition
Outstanding and Beyond terms	At time of reporting the loan is 'outstanding and beyond terms' if any of the contracted terms and conditions are not fulfilled. This implies that all loans with days in arrears greater than zero carry the status "outstanding and beyond terms".
Restructured Credit Facility	At the time of reporting the facility has been refinanced, rescheduled, rolled-over or otherwise modified because of weaknesses in the borrower's financial position or the non- payment of debts as arranged. These facilities are subject to conditions specified in Regulation 13 (a-e) of the Financial Institutions (credit Classification and Provisioning) Regulations, 2005 and Regulation 11 (a-d) of the Microfinance Deposit taking Institutions (Asset Quality) Regulations, 2004. The account status should not be defined in the context of risk classification. Status should be assigned as per their definition dependent

Status	Definition
	on the fulfilment of loan terms and conditions. The status assigned should enable a credit analyst track a borrower's behaviour
Write Off	When a loan is written off it is marked as such by a PI in the data submission of the month in which it is written off. If a loan is written off in one month the CRBs do not expect to see it reported again the following month.
Fully Paid	At the time of reporting a loan, if it was fully paid in that month it should be marked as such in the data reporting.
Current and Within Terms	At time of reporting a loan is 'current and within terms' if all contracted terms and conditions are fulfilled. Therefore the loan should have zero days in arrears. (e.g. a 30 day loan facility has been repaid within 30 days)
Written Off Recovery	This status is assigned to previously written off loans where a borrower starts to make repayments to clear the debt. The loan remains closed and maintains the risk classification of Loss until the account has been fully repaid in which case the status will change to FULLY PAID, and the RISK classification will revert back to NORMAL.
Forfeiture	This refers to an action by members of one group to lose money or their savings in order to pay the net balance of a defaulting member within the same group. Therefore if 'forfeiture' appears on a client's credit report as a status, it means that client defaulted and members of his/her group had to cover their outstanding balance.

The Credit Account Status values are listed below:

Values	Codes
1. Outstanding and beyond terms	1
2. Restructured credit facility	2
3. Write-off	3
4. Fully Paid	4
5. Current and Within Terms	5

APPENDIX 1.31 DATASET IDENTIFICATION

Dataset Identification refers to the reference code given to each record within a dataset. The two types of records are Header and Data records. The first record is distinguished by the character H.

Header Format (square brackets not included)	Example
[Header]|"[PI Identification Code]"|"[Institution Name]"|"[Submission Date]"|"[Version Number]"|"[Creation Date]"|"[File Identifier]"	H|"CRB0006"|"EXAMPLE BANK LTD."|"201201"|"2.0"|"20120101"|"CBA"

A file or data set submission can only contain one header record.

The standard status and format for header record data fields are listed below:

HEADER RECORD DATA FIELDS	STATUS	FORMAT	SPECIFICATIONS	REMARKS
Header	M	A1	H	Defines the record as a header record.
PI_Identification_Code	M	A6		Refers to the unique identification code issued by Bank of Uganda to the PI.
Institution_Name	M	A100	As per license issued by BOU.	Refers to the name of the PI as per the license issued by BOU or its respective licensing body.
Submission_Date	M	N8	YYYYMMDD	Refers to the last day of the month for which the PI is submitting data. The format for this data field is: **[Year of submission][Month of submission][Day of Submission],** i.e. YYYYMMDD
Version_Number	M	D2.2	Up to 2 decimal places.	Refers to the version number of the latest DSM manual.
Creation_Date	M	N8	YYYYMMDD	Refers to the date on which the dataset was created.
File Identifier	M	A3	FRA	Refers to the abbreviation code of the dataset.

All records compiled after the header record are denoted by the first data character “D”. The data character “D” is followed by the corresponding notation of all data fields within each dataset. The correct sequencing of data fields within each dataset is indicated in each dataset section within this document.

Data Format (square brackets not included)	Example
[Data]”| “[corresponding data fields of each dataset]	[D]|“[PI_Identification_Code]”|“[Institution_Type]”|“[Institution_Name]”|“[License_Issuing_Date]”|“[PCI_Unit_Number]”|“[PCI_Building_Name]”|“[PCI_Floor_Number]”|“[PCI_Plot_or_Street_Number]”|“[PCI_LC_or_Street_Name]”|“[PCI_Parish]”|“[PCI_Suburb]”|“[PCI_Village]”|“[PCI_County_or_Town]”|“[PCI_District]”|“[PCI_Region]”|“[PCI_PO_Box_Number]”

	|"[PCI_Web_Site]"|"[PCI_Latitude]"|"[PCI_Longitude]"
